

This document is for information purposes only and it does not form part of the Alexander Forbes Investments Global Fund (the "Fund") Prospectus, and does not constitute an invitation to subscribe for Units in the Fund. The matters set out herein should not be relied upon for the purposes of making an investment in the Fund. The Fund is an open-ended unit trust, which was established in Jersey on 28 April 1997 as an unclassified fund. The Fund is an unregulated collective investment scheme in the UK and its promotion in the UK is restricted by the Financial Services Act 1986. Unclassified funds are not covered by the Compensation for Investors (Jersey) Regulations 1988. Collective investment schemes (unit trusts) are generally medium- to long-term investments. The performance figures quoted are from Alexander Forbes Investments Limited, and are for a lump sum investment, using NAV-NAV prices with income distributions reinvested. The portfolio performance is calculated on a NAV to NAV basis and does not take any initial fees into account. Income is reinvested on the ex-dividend date. Actual investment performance will differ based on the initial fees applicable, the actual investment date and the date of reinvestment of income. Unit trusts are traded at ruling prices and can engage in borrowing and securities lending. Forward pricing is used. Commission and incentives may be paid and, if so, would be included in the overall costs.

The unit trust may borrow up to 10% of the net asset value of the Class Fund to bridge insufficient liquidity. The unit trusts are valued at the end of the day and at their final closing prices. Unitholders may agree to pay additional ongoing advice fees to their appointed financial planners. The Class Funds that are Feeder Funds only invest in participatory interests of a single underlying collective investment scheme portfolio. The Class Funds that are Fund of Funds only invest in participatory interests of more than one underlying collective investment scheme portfolio, which levy their own charges, which could result in a higher fee structure.
